

# This Is My Dance Floor

Bella Thorne

We shook it up  
Inside of the dance floor  
Made our mark  
Redefined the dance floor  
We busting down the front door  
Take it from the top

Look whose back  
We got the new moves  
Less talk more dance  
And that's proof  
Turn it up  
And do how we do  
Take it from the top

Cause now we rolling up new  
And it's just me and my crew  
Here come the sequel debut  
We breaking through  
Already here in the zone  
Feels like we conquered the throne  
Yeah it's so good to be home

This Is My Dancefloor  
My Dancefloor  
This is the night  
So let's bring up the lights  
This Is My Dancefloor  
My Dance Floor  
Everything more  
Never seen this before  
I'm stepping now  
To a whole new beat  
Taking the crowd  
From their seats to their feet  
Back with a new score  
It's what I live for  
This Is My Dancefloor

Think they're better  
Beta tested  
Alphabetically perfected  
So hot it's boiling over  
Just to give you full disclosure

Cause now we rolling up new  
And it's just me and my crew  
Here come the sequel debut  
We breaking through  
Already here in the zone
