

# You'll Never Be Sorry

Bellamy Brothers

You'll never be sorry if you let me love you.  
You'll never be lonely if you let me care.  
If you'd let me hold you, you'll know what I told you is true.  
You'll never be sorry if you let me love you.

The first time I saw you,  
I could not forget you.  
I felt I had known you,  
All of my life.  
I have been faithful to you since the moment our eyes said hell  
o.  
You may think I'm crazy,  
There's only one way you will know.

You'll never be sorry if you let me love you.  
You'll never be lonely if you let me care.  
If you'd let me hold you, you'll know what I told you is true.  
You'll never be sorry if you let me love you.

Once in forever fate brings us together like this.  
Someday when we're older we'll laugh and remember  
Those moments before we first kissed.

You'll never be sorry if you let me love you.  
You'll never be lonely if you let me care.  
If you let me hold you, you'll know what I told you is true.  
You'll never be sorry if you let me love you.  
You'll never be sorry if you let me love you.
