

You're My Favorite Star

Bellamy Brothers

Well, I go to the movies, I watch TV
And I listen to the radio
'Cause I like all them superstars
Show-biz thrills me so.

Yes, Sofia Lorren gets me shaky within
And Elvis is a pleasure to hear
But guess who's at the top of the list
And in my heart so dear.

You're my favorite star
Even though the rest of the world don't know who you are
You're my favorite star
And the way we're making sweet love tonight, it's gonna take us
far.

They got sexy girls all over the world
Like Farrah and Bridget Bardow
If you come along and steal my heart
And I just let 'em go.

We got country singers with the golden fingers
But way down deep inside
I'm begging Dolly Parton if I'm hurtin'
Charley's pride.

You're my favorite star
Even though the rest of the world don't know who you are
You're my favorite star
And the way we're making sweet love tonight, it's gonna take us
far.

Spanish verse:
Tu vas a briar. Como un estrella en el cielo
Me vas a iluminar.

You're my favorite star
And the way we're making sweet love tonight, it's gonna take us
far...
