Seymour Stein

Belle and Sebastian

Seymour stein, I've been lonely I caught a glimpse of someones face It was mine and I'd been crying

Half a world away Ticket for a plane Record company man I won't be coming to dinner

My thoughts are far away I?m working on that day North country girl 1 think she's going to stay

Promises of fame, promises of fortune LA to new york, San Francisco back to Boston Has he ever seen Dundee? Won't he hire a limousine? Seymour send her back to me

I heard dinner went well You liked Chris's jacket He reminded you of Johnny Before he went electronic

Seymour stein, sorry I missed you Have a nice flight home It's a good day for flying
