

Untitled And Unsung

Belly

I want you soft in the middle
I see a strange and furious face
I know your heart

I want your pearly hand in my hair
We make a strange and furious pair
I want you locked in the middle
I know your heart, I know your heart

It's just like mine was
So you wanna know why I can't sleep
You wanna know why I can't sleep
You wanna know why I can't sleep
Unless I've got a belly full of wine
You show up in time for a bad time
Unless I've got a belly full of wine
You show up and the world is wild

I want your pearly little hand in my hair
We make a strange and furious pair
I want you pearly on the inside
I know your heart, I know your heart

It's just like mine was
So you wanna know why I can't sleep at
night
You wanna know why I can't sleep at
night
You wanna know why I can't sleep
Unless I've got a belly full of wine
You show up in time for a bad time
Unless I've got a belly full of wine
You show up in taste for a bad time
Mmm, less I've got a belly full of wine
I'm drunk and the world is wild

Oom you got it, you got it
Heaven in your hand
