

## Finden

## Beloved Enemy

I can hardly bear that the love we used to share  
Is so fxxxxing dead  
Where we used to be is a lonely fxxxxing me  
And just nothing else  
How am I to live when I'm raping my belief  
So don't fxxx with me  
How am I to know should I stay or should I go  
When my mind went blank

How how  
Tell me how to find you

So I will remain in this ocean of my pain

While you're moving on  
Where is all my faith  
In this wretched song of hate  
There is no way out

Wie kann ich dich finden

Wie soll ich dich finden  
Wie kann ich dich finden  
Where is all my faith  
Wie kann ich dich finden  
And there is no way out  
Wie soll ich dich finden

Tell me how to find you
