

Path Of Sin

Belphegor

Again and again and again
You bring me to ecstasy

You have died but I don't care
Burial place is not your true relief
Fistfucks in your backdoos hole
Necropenetrating lust takes command

Path of sin sin
Create the sin sin

In darkness we'll always be together
Forever your body belongs to me
Wrapped in pleasure we will burn
In eternity we shall be reborn

Path of sin sin
Create the sin sin
