

Bad Decisions

Belvedere

(There's no excuse)
And that's the reason why I feel
(Angry confused)
Angry and confused why would you
Kill a man you realize,
(You realize you've loaded that gun before)

You'll never understand why it's so hard
To have compassion for you
I'll never comprehend why there's a system
That's misleading and untrue
A system that's misleading and untrue

Someone send a message out to justice
Cause I'm calling out it's name
I never had to think about it
If you were here I could almost picture
The expression on your face
They always find a way around it

(You waved away)
Responsibility you never
(Dug his grave)
Took it seriously
And now he's dead but you're still here
But sometimes life just isn't fair

I'll never comprehend why there's a system
That's misleading and untrue
A system that's misleading and untrue
It seems absurd he's off scott free
Instead of life he gets a year to three
It's not rectified it's
The same fucking thing to me
