Ben Cristovao

Hey pretty lady

Wanna come over
And make everything right
You've got what I want
I've got what you need
So lets just get away
Fulfill our fantasies

She knows she wants it
She knows she wants it from me
She knows she needs it
She knows she needs it from me
She wants it yeah
She needs it
She knows she needs
She knows ill give to her

Come over Come over
Come over Come over
Come over Come over
Come over Come over

Its so amazin'
The way we r makin love
Im goin'deeper
And I cant get enough
Our body s touchin'
What a feelin'
And I can hear u moanin'

She knows she wants it
She knows she wants it from me
She knows she needs it
She knows she needs it from me
She wants it yeah

She knows she needs
She knows ill give to her
