

Give Me Some More

Ben Cristovao

I can give you what you want, girl
Cliché like diamonds and pearls or
I can take you to another world girl
Fairytale stories and more

Girl! I can give you day and night
And prove you that I might
Be your fairytale night
And take u to the finest places
But your face
And your embrace is
Not enough for me to really play
this game so girl

gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low
gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low

All I need is a bit of trust, though
There's some other things
that u really must show
cause this world has always
been about the lust so
tell me when
you r ready to adjust

than Girl! Just give me day n night
To prove u that I might
Be your fairytale night
And take u to the finest places
But ur face
And your embrace is
Not enough for me to really
play this game so girl

gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low
gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low

A motorcycle, plane,
a car or train
I can get you anyway as long as you will stay
Here, with me,

But before we jump the gun
There is something
that you gotta do for me...

gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low
gggg girl give me some more
gggg girl give me some more
gggg girl give me some more
I like the way u do it
when u get down low
