

Put It On Me

Ben Cristovao

Did u ever think ur baby
would be famous
now I'm on the whole
worlds i pod play list
looks like we made
its been a long road
but i love u for ur patience
that why ur my favorite

see baby ur my superstar
I buy u everything u want
cuz u were with me from
the start I put u in a fancy car
Go where ever that u want
Take u shopping at the mall

Jimmy choos
gucci bags
loui scarf
prada shades
Vicky brows

we can go to France
you and me the Caribbean
We can go overseas

Without the money
and the fame
Girl you treated me
the same and the spotlight
couldn't change us
stick to the basics
I'm trying to keep
the pace and no matter
where you are put our
pictures on the wall

All the troubles
and the pain girl
Put it on me (3x)

All the stress
from the fame girl
Put it on me (3x)

Taking trips
around the world girl
Put it on me (3x)

As long as you're
my girl you can
Put in on me (3x)

Baby im yours but there's
that I gotta do
You know I'll be always
here for you

The magazine covers
at the photoshoots
I'll give it all up just to
be beside u
So keep ur phone
Whenever ur alone
I know u'll crack a smile
when you hear my ringtone
So leave the door open,
you know that I'll be home
That sexy lingerie I bought
ya..(put it on)
