

# Erase Me

Ben Folds Five

What was our home  
Paper not stone  
A lean-to at most  
And when you pulled your half away  
Gravity won  
Like it always does  
Did I weigh a ton?  
Would it be easier to just delete  
Our pages and the plans we made?

Erase me  
So you don't have to face me  
Put me in the ground and mow the daisies  
Ah, the memory, see how it goes  
When you

Erase me  
Erase me

So what will you do  
With no me for you?  
I know what we said  
But what if I left a thing or two  
We know that you don't seem  
To think about what you need  
'til you reach to find that you've

Erased me  
What the fuck is this?  
You're crazy, turned around  
In two weeks time replaced me  
Ah, the memory everybody knows  
How it goes you just

Erase me  
Did me like a bro and tazed me  
Fireworks - poof - it's gone, amazing  
New bio, you've gone solo  
Drawing mustaches on our wedding photo

Erase me  
Erase me  
Erase me...

Erase me  
This is us shouting, baby  
Erase me  
Do we call the cops now, baby?  
Ah, the memory everybody knows  
About the brand new home

Erase me  
And you'll never have to face me  
Erase me  
Option-Command-Escape me  
And if you feel nothing  
Guess what I'll wanna be
