

# Prince Charming

Ben Folds Five

Sleep  
Until prince charming comes in  
From a thousand men  
To kiss you on the cheek  
And wake you up  
You weren't even waiting and then  
I let myself in

She coolly asked, "how was it?"  
I'd take credit for it  
And it doesn't get out  
Your lips cold and in your soul,  
But i'm more here than there  
And i feel you here right now

Don't save me prince charming  
I'm busy, i'm busy, i'm busy  
Don't save me prince charming  
I'm busy, i'm busy, i'm busy

See, here comes prince charming again  
With another plan  
Waiting just to feel good, yeah  
He's gonna take you away  
From all of this  
So, sleep

Don't save me prince charming  
I'm busy, i'm busy, i'm busy  
Don't save me prince charming  
I'm busy, i'm busy, i'm busy

I never heard what she said  
I never know to stay away  
I never know when to quit  
She's okay, she's okay

Sleep  
Until prince charming comes in  
From a thousand men  
To kiss you on the cheek  
And wake you up
