(You don't stop, you don't stop, you don't stop)

Follow me into the great unknown Where pink flamingos grow Diet soda flows

And what you take magically regenerates On supermarket shelves The ovens clean themselves

You don't pay the tab
Till the last drop
Cause we all ride for nothing
Cause this train
Never stops

da dada da dada da dadada
We make a good team
Me and You
We do
You can scratch my back
And I'll scratch my back too

And everyone is welcome at the party Yeah People more is more Are we all on board?

(You don't stop, you don't stop, you don't stop)

[Chorus]
