

Do It for You, Do It for Us

Ben Harper

Tattoo your name across my heart
Every letter bold and dark
So that every time I breathe
You can know you're bringing me relief

I have stalked those hollow halls of lust
I do it for you, I do it for us
The trinity of honor, love, and trust
I do it for you, I do it for us

A mirror in the hand
Is worth ten from afar
Come close enough so I can feel you breathe
And see for who you truly are

I have stalked those hollow halls of lust
Do it for you, do it for us
The sunset burns of flaming ash and dust
I do it for you, I do it for us
I do it for you....

I have stalked those hollow halls of lust
I do it for you, I do it for us
The trinity of honor, love, and trust
I do it for you, I do it for us
I do it for you.
