I believe in a few things
God the devil and love
cause I've looked up from the bottom
and I've stared down from above

I have faith in a few things divinity and grace but even when I'm on my knees I know the devil prays

and you're working your way
from the ground on down

I hate to say I love you because it means that I will be with you forever or will sadly say goodbye

I love to say I hate you because it means that I will live my life happily without you or will sadly live a lie

and you're working your way
from the ground on down

life is short and if your lookin' for extension with your time you had best do well

cause there's good deeds and there is good intention they're as far apart as heaven and hell

and you're working your way
from the ground on down
