

# Someone in the Doorway

Ben Howard

Go find someone else  
I am not ready to die  
Go whisper softly  
To someone else  
Ask them  
To lie down

You can tell 'em I'll be back in the minute  
For now is not the time  
I was there already I think, as a child  
But I really can't remember why

Someone in the doorway  
Someone in the light  
Someone through the wall always  
Someone left outside

Go find someone else  
I am not ready to decide  
Go whisper softly  
To the man with no time  
Ask him  
To pick sides

You can tell 'em I'll be back in a minute  
For now is not the time  
Gone to find the root they all chewed on  
For millennia  
Do something better with my time

Someone in the doorway  
Someone in the light  
Someone in my hallway  
Someone wearin' a new hat  
Someone on the floor outside  
They say you don't come back from that

Into the light of a bad dream  
Into the laughter of a war  
England a sedative on my tongue  
Goodbye, goodbye that's all  
Goodbye, goodbye that's all
