

# The Moment

Ben Kenney

hold up, stay a while  
you've given certain things  
to let them go  
hold up, wait a while  
cause the world won't end  
by saying i don't know  
she said  
am i really gonna live forever  
is there any way to knkow  
is there anything that lasts forever  
is there any way to kow  
in the moment say no more  
if the silence doesn't kill you  
nothing will  
and i don't have  
what you're looking for  
we're gonna have to live through  
how this feels  
in the moment  
say no more
