

## Ann Disaster

Ben Kweller

Ann Disaster make it better,  
Make this whole thing come together  
With your false alarmin'.

I know what you want,  
You want a piece of me.

So we're waiting and not frustrating,  
You made a comeback and now you're ready  
To attack with our eyes wide open.

I know what you want,  
You want a piece of me.

You can tell a thousand lies  
But you can't hide or surprise your future.

I know what you want,  
You want a piece of me.
