

Ballad of Wendy Baker

Ben Kweller

Im so quiet today
I dont feel like me
Someone took your smile away
Now it's gone and I cant see
No one looks til it's gone
Im the one who likes change
But I feel taken by surprise
Let me rewind the things I said
That made it rain inside your eyes
I keep missing you
My heart knows it's through
Don't wake up Im here
To keep you from the storm
Ill suck up your fear
To keep your body warm
I keep missing you
My heart knows its through
Dont wake up Im here
To keep you from the storm
I'll suck up your fear
To keep your body warm
I keep missing you
My heart knows it's through
Nothing to hold on to
My heart knows it's through
