

Full Circle

Ben Kweller

As I burned all the books I read
I recalled somethin' someone somewhere said;
"There's so much in us you don't see."
Don't judge anyone because every-

-body comes full circle. I've come full circle.

Sand-shark tooth girl won't cry for you
She's the kind of girl you just can't bite through
Throws you into her mindless maze
Locks you up for days, then she sits and says

"I've come full circle." I've come full circle.

Runnin' 'round pullin' out yer hair
When you're sittin' there in that captain's chair
One eye always up on the fuzz
Now I'm havin' fun sittin' shotfun 'cause

I've come full circle, I've come full circle.

Promenade, wooo Brooklyn Heights to the Marfa lights
Open sky, wooo, lay me down let yer sweetness surround
Electricity ground, I just can't believe how

I've come full circle, I've come full cir ...
I've come full circle, I've come full cir ...
I've come full circle, I've come full circle!
