

Hear Me Out

Ben Kweller

Breaking the Rubik's cube.
Making me lose the beat.
Blue jean-baby girl,
We are an apogee
Down in the Christmas tree.

Hear me out,
You don't know I'm here.

I want it all too soon,
Faster than laser beams.
Come on people now,
Take your depressed friends out
They need a love to stay.

Hear me out,
You don't know I'm here.

I wanna come and play
Outside your bedroom gate.
I wanna pick you up.
Blue jean-baby girl,
Take me to outer space.

Phew... I found it now,
All of the common places are in their face.
The world is trapped inside
Taking me for a ride
And I don't know your name.

Hear me out,
You don't know I'm here.
(hear me out)
