

## Hurtin' You

Ben Kweller

Wheres that smile at  
Where'd you take it to?  
I never thought that anything could hurt you  
Tell me everything you're going through  
I never thought that anything could hurt you  
Dont forget yourself child  
Youre the only thing that can pull you through  
We are helpless without you  
Come back to us with that smile you always do  
I never thought that anything could hurt you  
Something came in changed you're pretty point of view  
I never thought thought anything could hurt you  
Don't forget yourself child  
You're the only thing that could pull you through  
We are helpless without you  
Hey now what up we need you come on and pull it through  
Cuz right now everything is hurtin you  
Its hurting you  
Its hurting you
