

Living Life

Ben Kweller

The greenest trees you'll ever see
Are the ones in your mind.
And all the answers and the dreams
Will come to you in time.

Yeah, you are living life
The way you feel.

I know the world around you,
Everyone shares the sky.
You never see darkness,
You are the daylight.

Yeah, you are living life
The way you feel.

Go away with a smile.
Don't forget about your past.
Don't keep yourself from giving.
I am always watching you
Be yourself and stayin' true
'cause it makes me feel like life's worth living.

The way you feel.

I've never minded where you're going,
I know that change is part of you.
I'm not gonna hide anymore, I'm gonna listen to myself
And maybe one day I can be real too.

Yeah, you living life.
Yeah you are, you are living life.
Don't you know that you are living life.
The way you feel.
And that is real.
