

# Magic

Ben Kweller

Half moon  
Crossed eyes  
Fear is disguised  
She carries sadness in her lung  
I can hear her  
I can run

She'll never be in second place  
She'll never be in second place

I see it in her  
I hear it in  
I feel it in her  
I know it's in her  
She's magic

Always  
Trusting  
Everyone  
In what they say  
Walk down  
Every road  
I'm never sick  
Of growing old

She'll never be in second place  
She'll never be in second place

I see it in her  
I hear it in her  
I feel it in her  
I know it's in her  
She's magic  
Magic

Always alright

She'll never be in second place  
She'll never be in second place

I see it in her  
I hear it in her  
I feel it in her  
I know it's in her  
I see it in her  
I hear it in her  
I feel it in her  
I know it's in her  
She's magic  
She's magic
