

Sawdust Man

Ben Kweller

Im the sawdust man Im the music man im the talk of the town
Stick with my my little baby I wont let you down
My doors are always open for you to come in
Hurry up my little buttercup let the games begin
Im so tired of waiting around
Gotta get this thing off he ground
Im on top of the Grey Hound station
Wont you please come home
Im on top of the Grey Hound station
Wont you please come home
Been up here since 405
My work day is done
Pockets fat well my kitty cat
We're gunna have some fun
When I see the big high beams
Cross the county line I get the butterflies
Shiver spine
Gunna drop right down and wrap you up in these arms of mine
Baby I want to kiss you on the edge of your toes
And take this thing as far as it goes
Im on top if the Grey Hound station
Wont you please come home
Im on top of the Grey Hound station
Oh come home
Woo Hoo
Im on top of the Grey Hound station
Wont you please wont you please wont you please come home
Im on top of the Grey Hound station wont you please come home
Just come home ah just come home
Come come home
Youve been gone for way too long
Come Home
