Sundress

Ben Kweller

Everybody's trying to be the best What about the girl with loneliness I like your sundress I like your sundress What about the girl with loneliness From the inside out You're so beautiful I want to hold you in my hand

I do everything you want me to I do everything you want me to do

I want to start going on a morning walk What about the days when we used to talk? I don't need a smile from a mannequin I just want to hold you in my hands

I do everything you want me to I do everything you want me to I do everything you want me to do

From the inside out You've changed, girl You know you have Don't make a good thing bad Just let me hold you in my hands

I do everything you want me to I do everything you want me to do I do everything everything everything I do everything you want me to I do everything you want me to do Do do for you
