

In The Morning

Ben Lee

In the morning, in the morning
You were there and you felt things get strange
Early in the morning

You learned your lesson, learned your lesson
Misery is too depressing, hey
Now you learned your lesson

But you'll forget, you'll forget
When you're lonely you'll forget
You'll forget when you're lonely
You'll forget

Hey desire, hey desire
Please protect me from the things I'm wanting
This is a recording

Here's a secret, here's a secret
Love's a game where rules just complicate it
Lose it if you break it

But you'll forget, you'll forget
When you're lonely you'll forget
You'll forget when you're lonely
You'll forget

You'll forget, you'll forget
When you're lonely you'll forget
You'll forget when you're lonely
You'll forget
