

Into The Dark

Ben Lee

I'm feeling better
Since I surrendered
You cant climb till youre ready to fall

You're not a landmine
You're not a goldmine
No, you're not mine at all

So tell me baby
Can you hear me?
I sent a message out into the dark
It's a mystery
When you're near me
I've gotta find my way to your heart

I learned my lesson
First impressions
Are more often right than wrong

It's not a slow dance
This modern romance
Feels like we've already waiting too long

Don't worry baby
About how it should be
I sent a message out into the dark
I'd rather talk to you
About how it could be
I've gotta find my way to your heart

I was one of those
Breathing tornados
But now I live at the eye of the storm
And its all faded
That sense of separation
Since I let your love keep me warm

You tell me baby
That you can feel me
I sent a message out into the dark
When I kiss you
Thats the real me
I've gotta find my way to your heart

So tell me baby
Can you hear me?
I sent a message out into the dark
It's a mystery
When you're near me
I've gotta find my way to your heart
