## **New Song**

My heart it is eternal And my soul it often flies You can see it in the evenings soaring through the skies And it takes me close to madness Though it never really tries

I've crossed a million rivers And I've walked a million miles I've kissed a holy angel and I've tried to show some style I never even questioned How I know it's all worthwhile

But I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all I will fall

My legs they get so tired And my head it often screams You can hear the thoughts all turning overload of fears and dreams I don't mind the sting of feeling But it burns when I'm empty

I'll ride the road I've chosen And at times I know I'll fall I have nothing to lose now so I want to taste it all Wintertime in Glendale Till the next location calls

But I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all I will fall

I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all I will fall

I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all I will fall

Well there's no one left but you now babe Got to say that it's your call

I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all And I'm gonna make it through and I'm gonna do it all I will fall
