

## On & On

Ben Lee

Without a gun I'd be defenceless against you  
Without a doubt I'd lose everything I have  
Last chance - something I'm trying to tell you  
It's clear you're really not my friend

On and on while you're gone  
On and on while you're gone

Someday rise and realise I'm fine  
So strange not waking up by your side

On and on while you're gone  
On and on while you're gone

Anywhere you have to go, any risk you have to take  
Anything you need to know, any heart you have to break  
If you hear me, come near me  
This is your song  
On and on while you're gone

Eight o'clock - watch the TV  
Nine o'clock - I think I'm going to hell  
Ten o'clock - Why'd you leave me  
Eleven o'clock - I'm not doing so well

Anywhere you have to go, any risk you have to take  
Anything you need to know, any heart you have to break  
If you fear me, don't fear me  
This is your song  
On and on while you're gone  
On and on while you're gone
