

Sing

Ben Lee

Hey, you, back against the wall,
Wondering if the world will fall apart.
Hey, you, crying in your drink,
Looking for an answer to something in your heart.

You can find it anywhere. [x5]

Sing, it's your favorite song.
When you're singing along,
Nothing is wrong.
Everybody just sing,
For the people who can't.
It'll help them survive;
We are free and alive.
Everybody just sing.

Hey, girl, what's the matter now?
Feeling like each day it's something else.
Hey, you, waiting in the shallow,
Looking for a reason,
Find it in yourself.

You can find it anywhere. [x5]

Sing, it's your favorite song.
When you're singing along,
Nothing is wrong.
Everybody just sing,
For the people who can't.
It'll help them survive;
You are free and alive.
Everybody just sing.

I'm gonna sing. La la la la la.
Come on sing with me. La la la la la.
Come on, guys. La la la la la.
Sing with me. La la la la la.
Keep it going now. La la la la la.
La la la la la.
La la la la la.
La la la la la.

You can find it anywhere. [x8]

Sing, it's your favorite song.
When you're singing along,
Nothing is wrong.
Everybody just sing,
For the people who can't.
It'll help them survive;
You are free and alive.
Everybody just sing.

It's the secret revealed,
If you wanna get real,
If you wanna feel.
Everybody just sing,

For the people can't.
It'll help them survive;
It'll keep them alive.
Everybody just sing.

Come on, let's sing!
