

We're All In This Together

Ben Lee

Woke up this morning
I suddenly realized
We're all in this together
I started smiling
Cos you were smiling
And were all in this together
I'm made of atoms
You're made of atoms
And were all in this together
And long division
Just doesn't matter
Cos were all in this together

I saw you walking
In the city
We're all in this together
The city's changing
Cos we are changing
And were all in this together
Every twelve seconds
Someone remembers
That were all in this together
In the kitchen
Of your rent-control apartment
We're all in this together

C'mon baby
I dont mean to rush you
I only wanted to reach out and touch you
I've gotta start to open my heart

I know you think
About jumping ship before it sinks
But were all in this together
Ask a scientist
It's quantum physics
We're all in this together
And on the subway
We feel like strangers
But were all in this together
Yeah I love you and you love her
And she loves him
But were all in this together

Y'know baby
There's never been protection
In all the history of human connection
C'mon darling
It's alright to show me
You don't ever need to be lonely
Once you start to open your heart

I saw you crying
I started crying
Cos were all in this together

And then religion

It's a big decision
But were all in this together

We're all in this together
