

# Whatever It Is

Ben Lee

Are you changing?  
Do you know it?  
Do you feel it?  
Do you know?  
But you're waiting  
While you're waiting  
Why are you waiting?  
Just do it - whatever it is

There are secrets  
There are places  
There are places you can go to  
They might tell you  
Yeah they'll tell you that you shouldn't  
But do it - whatever it is  
Go do it - whatever it is  
Just do it - whatever it is

And you're dancing  
And you're looking kinda crazy  
And your arms are making little circles  
There are reasons  
There are reasons you can find out  
So do it - whatever it is  
Just do it - whatever it is  
Go do it - whatever it is  
Whatever it is

It's so quiet  
And you're dreaming  
I turn to you and say  
"Awake is the new sleep"  
So wake up  
And do it - whatever it is  
Just do it - whatever it is

Cos awake is the new sleep  
Awake is the new sleep  
So wake up  
Wake up  
And do it - whatever it is  
Just do it - whatever it is  
Go do it - whatever it is  
Just do it - whatever it is  
Whatever it is
