

# Life Keeps Moving On

Ben Rector

Here's the truth  
Life sucks sometimes  
When it hurts so bad that you can't go on  
Life keeps moving on

When you feel  
That you've been done wrong  
When you're sure your world is coming down around you  
Life keeps moving on

And it is beautiful and tragic  
Different, but same old song  
Sometimes the only thing you learn is  
That life keeps moving on

When it's good  
When you're flying higher  
When your feet float up above the ground around you  
Life keeps moving on

When you're glad  
When you're fat and happy  
When you don't need for anything  
Life keeps moving on, yeah

And it is beautiful and tragic  
Different but same old song  
Sometimes the only thing you learn is  
That life keeps moving on

We're better off the sooner that we find  
That life is mostly what we choose to see  
'Cause whether or not I've got what I want  
Life keeps moving on in front of me

At this pace  
We're gonna get somewhere  
If it's good or bad, if it's slow or fast  
Life keeps moving on  
And yes, life keeps moving on
