

When She Comes Around

Ben Rector

I've noticed
And you've found true
And with both fists
I'm (needing/leading?) you
And I've got doubts
And they talk so loud
In silence
Is where you're found
When she comes around I'll be ready
When she comes around I'll be strong
Since she's been around let me be forgetting
The reason she's been gone

And my memory
It works in spite
It's been remembering
More wrong than right
And my heart beats like an anchor filled
Filled with the memories
That bind my will

When she comes around I'll be ready
When she comes around I'll be strong
Nah nah nah nah nah nah nah
Since she's been around
Let me be forgetting
The reason she's been gone
Cause now she's home
