

## A Quiet Day

Benighted

Today newspaper says: on last Saturday  
Some macabre discovery  
Was made in a house of the neighborhood  
A corpse was found in cave  
Left in an advanced state of decomposition  
And children's toys everywhere around him  
Neighbors were alerted by the putrid stench  
Escaping from the house  
The man used to live alone  
Polite and discreet on the quiet side of the street  
Forensic autopsy: rigor mortis was present  
Pupils widely dilated  
Epidermolysis process  
Pieces of flesh were missing  
On several parts of the body, some were found close to him  
Soaking in dry spilled blood  
Pieces of flesh were missing (no cause or evidence found)  
On several parts of the body  
Morbid curiosity  
Some were found close to him  
This was a quiet day... the other missing pieces were extracted  
from his  
Stomach  
The autopsy revealed the man devoured himself  
He probably vomited all the meat his organism couldn't endure  
No psychiatric history or other element found  
Old scars on his body  
Revealed he endured bad treatments  
Or used to practice self-mutilation
