

Nemesis

Benjamin Clementine

If I'd held my breath on you
I would've died a thousand times
And if chewing was to show you how much I cared
I'd probably be wearin' dentures by now

If you'd held your breath on me
you would've died a million times
And if chewing was to show me how much you cared
you'd probably be swallowin' your tongue by now

Our promises, broken
Nemesis sour token

You turn around and you march on to your new home
wherever you're goin', darling
Please don't you ever forget to treat others the way you want to
be treated
Remember your days are full in number

March on

All that I'm trying to say darling is that you know I left her
for you
I guess you're doing the same thing to me now
Now These days heresy dries my veins
As our genesis smiles back at me
Now heresy might be a new fate
Whatever you've chosen to believe in darling
Don't you ever forget to treat others the way you want to be treated

Can't say anything for you no more
Nemesis is in the cage darling
Next time, treat others the way you want to be treated otherwise
you'll get your punishment
Life isn't a beach, Nemesis is,
Nemesis is
nemesis is a matter of Karma
So long you run
