

# Is That You On That Plane

Benjamin Francis Leftwich

I know that you are leaving  
but I hope that you can stay  
The hardest part about healing  
was knowing what you would say

When your garden was covered in snow, love  
I could tell what you wanted to say  
And then when you called me again, love  
You told me you were going to break

Is that you on that plane  
Is that you in the sky again

I know that it's been through, yeah  
'cause I hear it in your voice  
I know you tried to fight it  
Did you ever have a choice

When we walked through Rome in the evening  
getting high in little bars  
At least we took what we were seeing  
and kept it in our little hearts

Is that you on that plane  
Is that you in the sky again  
Is that you on that plane  
Is that you in the sky again

Oh, let it go  
It is done now  
You have rolled and rolled away  
Let it never be said you were missing  
'cause you're never missing to me

I know that you are leaving  
but I hope that you can stay  
The hardest part about healing  
was knowing what you would say
