

# Shocking Silence

Benny Benassi

Ah, aaah, aaah, aah (7x)

With your fake smiles  
Fake smiles  
When you call my name  
I know....

All your friends  
Are getting better  
Irritating restless looser  
And your loves  
Are getting faker  
Before you've found  
The magic powder.

You've done it  
You've seen it  
It doesn't help ya  
Where is the great love  
You showed me?  
Oh I know it's gone

You drive me insane  
With your fake smiles  
When you call my name  
I know you feel blame  
You drive me insane  
You twist me  
Then you crushed me

With your fake smiles  
When you call my name  
I know you feel blame

You've done it  
You've seen it  
It doesn't help ya  
Where is the great love  
You showed me?  
Oh I know it's gone

You drive me insane  
With your fake smiles  
When you call my name  
I know you feel blame  
You drive me insane  
You twist me  
Then you crushed me

With your fake smiles  
When you call my name  
I know you feel blame

Sweet like darling  
Didn't get me to know ya  
I didn't see it  
You on your own now

It so much better  
If you told me whatever  
Your shocking silence is picking my nerves now

Sweet like darling  
Didn't get me to know ya  
I didn't see it  
You on your own now  
It so much better  
If you told me whatever  
Your shocking silence is picking my nerves now

With your fake smiles  
When you call my name  
I know you feel blame
