Spaceship

Benny Benassi

Jump on the spaceship
Jump on the spaceship
Jump on the spaceship
Jump on the spaceship

Sitting on top of the world
Watching the stars
Go by
I got my head in a dream
Got my head in the clouds
I can fly I can fly I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high

Sitting on top of the world
Watching the stars
Go by
I got my head in a dream
Got my head in the clouds
I can fly, I can fly, I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high

You better move
Check out the baseline groove
Take control of your body soul
Let the rhythm just take control
Once the beat drops, it explodes
Technologic overload
Take the music around the globe
Take control of your body soul, soul, soul
Let's go

Jump on the spaceship, take off
Jump on the spaceship, get on
Jump on the spaceship, take off
Jump on the spaceship, get on

Sitting on top of the world
Watching the stars
Go by
I got my head in a dream
Got my head in the clouds
I can fly, I can fly, I can fly
So get high, get high
Get high, get high
So get high, get high
Get high, get high

Sitting on top of the world
Watching the stars
Go by

I got my head in a dream
Got my head in the clouds
I can fly, I can fly, I can fly

So get high, come on, get high, come on
Get high, get high
So get high, get high
Get high, get high

Jump on the spaceship, take off
Jump on the spaceship, get on
Jump on the spaceship, take off
Jump on the spaceship, get on
