

Back To Nothing

Benton Falls

I follow you around
Like i follow the sea
But i see you're not
Interested in me
And i fall for your shadow
It's all i've got
And when you're walking away from me
All i've got is lost
And i forgot what i'd lost.
With this line that i'd crossed
And now everything has changed back to nothing
I see you by the pay phone
As i'm walking home that night
My emotions were unaffected
And my eyes were disconnected
The point is that i've created this crush
To help me out
To help me out of this
Twice as lonely
When i'm with you
Twice as lonely
But i don't miss you
When you're around
