

Bitter By Choice

Benton Falls

Try as you will
You can't escape your past
Given everything you ever wanted
I never will understand your life
Well not this time

Have you ever had to fight for anything

Mother pays your rent
And daddy bought your car
With the money that they've spent
It's sure did get you far

What's your life when everything is so fake
What's your life you're an expert on everything

You're so fake everything is just a game

Try as you will
You can't escape your past
Given everything you ever wanted
Not this time, not this time

Have you ever had to fight for anything
