

Fighting Starlight

Benton Falls

is this what you want.
it's eight o'clock.
i'm nodding off.
starlight is stealing my heart tonight.
bar fight but i won't be there.
and i've tried all this before.
you swing and you miss and i miss the way things used to be.
late night and you're driving me crazy.
wait 'till you find this ain't the life you want to lead.
regular.
every night.
regular.
but i won't fight you.
what if i don't care
