

Swimming With You

Benton Falls

i got to the car.
drove far.
decided to stay away.
with my foot on the gas.
drove past.
all of the shit i needed to say.
i've waited 'till now for the right time.
i've waited 'till now for the right time to tell.
i've waited 'till now for the right time.
i've waited 'till now to open up to you.
and i can't breathe.
swimming with you is the hardest.
everything you do is so true.
swimming with you is the hardest thing.
and i won't hold my breath.
and i won't hold my breath when i'm with you
