

# All I Need

Beres Hammond

Everyday I see the sunset on the hilltop across the plains  
Feel the summer breeze blowing gently across my face  
As I think about my life and all that I've achieved  
I don't want to have to worry, no, no, no  
'Bout the choices I've made in my life, yeah, yeah, yeah  
It's hard enough living in this world alone  
But I know this road I traveled will lead me home

Time is precious  
I don't have that much to waste, no  
I must find that someone to make my life complete, yeah  
So when I come home and open up the door, yeah  
Everything I live for is standing waiting there for me, yeah  
To give me all the love I need  
And that they will never let me down, never, never  
And as man, this is all I ever ask for  
To have a loving home and a happy family, yes, yes, yes  
No I've never been the kind of person to build my hopes  
But sometimes it seems like hope is not enough  
I pray to God for you, yeah I pray for you

You're all I need in my life  
You're all I need in my life  
(You're all that I need, oh baby)  
To make it by  
You're all I need  
(No one else, no one else, no one else)  
You're all I need  
Need in my life to make it by  
(It's all I need to get my life together)  
And you're all I need  
You're all I need  
Need in my life to make it by  
You're all I need  
Need in my life to make it by  
You're all I need
