

## It's Not Too Late

Beres Hammond

Ooh Let me be the first to say how good you look  
Tonight, I sure hope that day break will be, no where  
Close in sight, cause I wanna hold you, and touch you  
For a long, long, long time...

Ooh when you said you'd meet me, thought it was just  
A game, never thought that you would even remember  
My name, oh I wanna hold you, and touch you for a long, long,  
Long time.

Now I have one regret, I'd never met you before  
(I should have known you a long, long time)  
It's not too late, things can be great, you and me  
Oooh baby baby...

(Comma comma comma little reginald, can can can  
Can I take you home... baby... oooh baby)

Now I have one regret, I'd never met you before,  
(I should have known you a long, long time)  
Glad it's not too late, things can be great you and me  
Oooh baby baby

Here my heart says yes,  
So I know I'm blest with you baby  
Baby,  
Glad it's not too late  
Things can be great,  
You and me baby baby...

Still it's not too late  
Things can be great  
You and me... ooh baby  
Baby baby...

Glad it's not too late... [to fade]
