

## Rose Garden

Beres Hammond

Do you know what I'd like to do right now  
I'd like to lay right down girl  
And put my arms around you  
Wonder where will I be let's say six years from now  
I wish that I could still be with you  
Now if I had it in my hand control your every move  
Now here is exactly what I'd do

I'd put you in the middle of my rose garden  
And I would never never have to say pardon  
To the daises the tulips the buttercups  
Not even the roses and I'd water you first every  
Morning the other flowers would have to start  
Calling give me some water please  
We too need to grow

Wonder where will I be  
Let's say ten years down the road  
Search my heart and constantly you're there  
Can't get you out of my system and I like this living  
It's so wonderful that you and I can share

Time will change us never  
Nature's gonna keep us together  
Time will change us forever  
Know our love will last so I shouldn't even ask  
Where will I be, will you be there with me  
Can't get you out of my system and I like this living  
I've searched my heart, it always sets me free  
Time will change us never  
Nature's gonna keep us together  
Time will change us never  
Nature's gonna keep us forever
