## **Rose Garden**

**Beres Hammond** 

Do you know what I'd like to do right now I'd like to lay right down girl And put my arms around you Wonder where will I be let's say six years from now I wish that I could still be with you Now if I had it in my hand control your every move Now here is exactly what I'd do

I'd put you in the middle of my rose garden And I would never never have to say pardon To the daises the tulips the buttercups Not even the roses and I'd water you first every Morning the other flowers would have to start Calling give me some water please We too need to grow

Wonder where will I be Let's say ten years down the road Search my heart and constantly you're there Can't get you out of my system and I like this living It's so wonderful that you and I can share

Time will change us never Nature's gonna keep us together Time will change us forever Know our love will last so I shouldn't even ask Where will I be, will you be there with me Can't get you out of my system and I like this living I've searched my heart, it always sets me free Time will change us never Nature's gonna keep us together Time will change us never Nature's gonna keep us forever
