

Sing Glory

Beres Hammond

He gave us life, he gave us dreams
Still some people act like we're still in chains
When there's so much in life
To live for and to be thankful for

You should a sing glory now
Sing glory glory now
Sing glory now, sing glory

Praises for the sun and the moon
We thank you for your light
Praises be for the rain and the breeze
Most important to life
Praises be to life itself
Even when days are bad
And when I rise to see another day
Glory be to God

Children of god don't worry too much
A new day is on the rise
Don't be discouraged be strong my friend
You're bound to win your big prize
Come my little sister, please my little sister
Bear out with your man
It's not everyday the seas gonna be rough
The sun is bound to come

There's so much in life
That we should be thankful for
He gave us life, he gave us dreams
